

Linked list assignment - Complete C Program

Dr. B Sathish Babu • Dec 28, 2022

100 points

Due Dec 31, 2022

Add class comment

1. Create a linked list by inserting nodes towards the beginning of the list.

2. Reverse the contents of the list.

EXAMPLE:

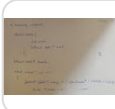

Before reversal: Start->10->20->30->40->NULL

After reversal: Start->40->30->20->10->NULL

3. Display the list

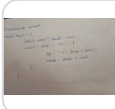

Your work

Turned in late
